**FOR IMMEDIATE RELEASE**

**NetCare Working with Kmart® to Offer Specialty Medications**

*NetCare members and Kmart customers can access wide range of medications treating chronic, complex conditions*

**Hagatna, Guam (August 18, 2014)** – NetCare Life & Health Insurance Company announces today it has entered into an agreement with Kmart Pharmacy to give NetCare customers access to specialty medications, bringing specialized support for a variety of patient conditions, including but not limited to: HIV, Crohn's disease, anemia blood modifiers, and Hepatitis C, among others.

By 2018, specialty medications are projected to account for more than 51 percent of sales within the top 100 prescription products. Through this new agreement with Kmart Pharmacy, Kmart offers a new level of service and convenience to meet the needs of the growing specialty medication population.

"We understand that when patients are dealing with a chronic or complex health condition they need an extra level of care," said Dain Rusk, vice president of Pharmacy for Sears Holdings. "By partnering with NetCare, Kmart Pharmacy is able to provide a highly trained team to support medication therapy and comprehensive care management to better serve NetCare's specialty pharmacy members."

In addition to HIV, Crohn's, anemia and Hepatitis C, Kmart Pharmacies will also offer specialty medications to treat conditions such as cystic fibrosis, growth hormone, multiple sclerosis, osteoporosis, renal, rheumatoid arthritis, and transplants. In addition, patients will have access to patient care coordinators familiar with their medical files, specialized injection training (for patients requiring this service), and manufacturer co-payment support cards for eligible patients.

"We are indeed pleased with this new partnership with Kmart Pharmacy that adds yet another level of direct quality access to much needed specialty medications that will ultimately improve lives and the delivery of needed care management to our members," said Jerry Crisostomo, NetCare's Plan Administrator.

For information on Kmart Pharmacy's new specialty medication services, visit [www.kmart.com/pharmacy](http://www.kmart.com/pharmacy). With more than 800 Kmart Pharmacy stores across the country, prescription access is easy.
